Angular Development Internship, Birds Company
Apr 2019 – Sep 2019
6-month internship introducing me to web development and Angular fundamentals.

📁 PROJETS THAT MATTERED FOR ME

Oward, Seo
Through this project, I gained practical expertise in web SEO and website optimization, which allowed me to significantly increase their online visibility.

Oward, App Mobile
Discovered mobile development and React Native, created
and deployed the application from scratch independently.

Epitech – Projet de Fin d'étude (EIP), Lead Front
Thanks to my internship at Birds and my work throughout
the year, I was able to lead and make the technological
choices for the front-end part of this 2-year project.
(Angular, TypeScript, & deployment)
